

VENTILABRO SRL

**THE POWER OF ENZYMES,
NATURE'S WISDOM**

OUR SECTORS

AGRICULTURE

Agriculture and soil management

We support farms in their transition to more sustainable and productive practices.

WATER TREATMENT

Water purification and treatment

Biotechnological solutions for optimising wastewater treatment processes (domestic and industrial).

FISH FARMING

Fish farming and aquatic ecosystems

Biotechnology for maintaining biological balance in fish farms.

ANIMAL HUSBANDRY

Animal husbandry and animal welfare

Solutions for equestrian centres, kennels and professional breeding farms.

HOME & CAMPERVANS

Home & Camper Range

Daily hygiene with the power of enzymes and the pleasant scent of essential oils.

ECOGAS

Ecogas and Bioenergy

Technical support for biogas and ecogas plants to maximise energy output.

Agriculture & soil management

We support farms in their transition to more sustainable and productive practices:

- **Soil Revitalisation:** The use of enzyme complexes to improve soil structure and the bioavailability of nutrients.
- **Residue Degradation:** Accelerates the decomposition of stubble and crop residues, rapidly converting them into humus.
- **Root Development:** Natural stimulation of root growth for stronger plants that are more resistant to environmental stress.

EXTENSIVE FARMING

VITICULTURE

HORTICULTURE

FLOWER GROWING

ARES

NATURAL AGRONOMIC BIOCATALYST

A blend of natural, biologically active bacteria and enzymes specifically designed to support plants against various forms of stress and microbiological, bacterial and fungal contamination.

AVAILABLE WEIGHTS

Pack of	1kg
Pack of	3kg
Pack of	5kg
Pack of	10kg
Pack of	20kg

STORAGE TEMPERATURES

-10°C

+50°C

COMPOSITION: Enzymes/ ferments / active plant substances, microorganism cultures and nutrients, aldehyde monosaccharide 35%, mycorrhizae 15%

PRECAUTIONS: This is a completely natural product, non-toxic to humans and animals. ARES has no contraindications and requires no special precautions.

FERTIZYM

NATURAL AGRONOMIC BIOCATALYST

A blend of natural, biologically active bacteria and enzymes, specifically designed to protect plants against common pest infestations and microbiological, bacterial and fungal contamination.

AVAILABLE WEIGHTS

Pack of	1kg
Pack of	3kg
Pack of	5kg
Pack of	10kg
Pack of	20kg

STORAGE TEMPERATURES

-20°C

+50°C

COMPOSITION: Enzymes/ferments/active plant substances, microorganism cultures and nutrients, plant substances and micro-organic elements from seaweed, humic and nucleic acids, mineral salts (Si – Mg – Ca – K – P), mycorrhizae 16%

PRECAUTIONS: This is a completely organic product that is non-toxic to humans and animals. FERTIZYM has no contraindications and does not require any special precautions.

PRECAUTIONS: This is a completely natural product that is non-toxic to humans and animals. ZEOMIX has no contraindications and does not require any special precautions.

SEED PLUS

NATURAL AGRONOMIC BIOCATALYST

SEED PLUS® is a microbiological enzyme-based product with probiotic properties, developed by Chemical Control. A professional formulation for the protection and growth of plants in both intensive and extensive farming systems.

AVAILABLE WEIGHTS

Pack of **250ml**

STORAGE TEMPERATURES

-20°C

+50°C

COMPOSITION: Total bacterial count 310×10^9 MPN/g, enzyme complexes (lactase, cellulase, protease, amylase, etc.), mycorrhizae (10%), marine plant extracts, supporting mineral salts, vegetable glycerine.

PRECAUTIONS: This is a completely natural product, non-toxic to humans and animals. SEED PLUS has no contraindications and requires no special precautions.

FRUIT GROWING

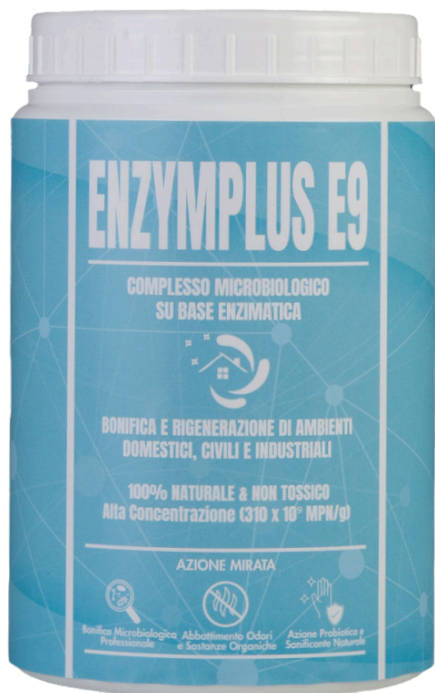

SEED TREATMENT

Water purification and treatment

Biotechnological solutions for optimising wastewater treatment processes (domestic and industrial):

- **Reduction of Biological Load:** Rapid degradation of contaminants and reduction in sludge volume.
- **Odour Control:** Elimination of unpleasant odours at source through bioenzymatic action.

COMPOSITION: Enzymes/ferments/active plant substances, fungal component: Ficomyces class, Ascomycetes class, Deuteromycetes class; bacterial count 310×10^9 , protein-based nutritional extracts for these cells, marine plant extracts, supporting mineral salts.

PRECAUTIONS: This is a completely organic product that is non-toxic to humans and animals. Enzymplus FL 200 has no contraindications and does not require any special precautions.

PRODUCT STATUS

IN DUST

BACTERIAL NUTRIENT

MICROFOOD

FOOD SUPPLEMENT

It is a dietary supplement for bacterial flora, containing a plant-based saline-mineral substrate. It can be used to accelerate the growth of bacterial and protozoan populations in biological treatment systems during the start-up phase, or during periods of microbiological stress caused by abnormal organic loads.

AVAILABLE WEIGHTS

Pack of	3kg
Pack of	10kg
Pack of	20kg

STORAGE TEMPERATURES

-20°C

+50°C

COMPOSITION: Fibra vegetale da alghe marine, estratti di carne liofilizzata, grassi animali, Sali minerali (P - Mg - K - N - C)

PRECAUTIONS: Si tratta di un prodotto totalmente biologico, non tossico per l'uomo e per gli animali. MICROFOOD non comporta nessuna controindicazione e non necessita di alcuna precauzione particolare.

PRODUCT STATUS

IN DUST

Fish farming and aquatic ecosystems

Biotechnology for maintaining biological balance in fish farms:

- **Biological Purification:** Removal of ammonia and nitrites, ensuring healthy water for the fish.
- **Animal Welfare:** Reducing mortality and improving growth naturally.

FISH FARMING

FL 200

ENZYME-BASED MICROBIOLOGICAL TEST KIT

A mixture of microorganisms suitable for the biological treatment of eutrophic lake waters with high levels of asphyxiation, caused by pollutants such as: hydrocarbons, surfactants in general, nitrogen-rich organic matter, pigments, caustic mineral salts and any other highly contaminating substances with biocidal properties.

AVAILABLE WEIGHTS

COMPOSITION: 5 enzyme forms, microbial activity 350×10^7 MPN/ml, mineral salts (Ca – Mg), pine essential oils, thickener No. 9, 5% saline solution, 5% glucose solution, 10% chlorophyll

PRECAUTIONS: This is a completely natural product, non-toxic to humans and animals. H.E.5 has no contraindications and requires no special precautions.

E9 CAMPER

NATURAL SANITISING SOLUTION

E9 CAMPER is a natural, enzyme-based microbiological complex enriched with pine essential oils. Designed for the sanitisation and deodorisation of enclosed spaces in motorhomes, caravans and boats.

AVAILABLE WEIGHTS

Pack of **500g**

STORAGE TEMPERATURES

-20°C

+50°C

COMPOSITION: Enzymes, total bacterial count 310×10^9 mpn/g, probiotic cultures, pine essential oils, probiotic microorganism cultures, micro-organic elements from seaweed, humic and nucleic acids, mineral salts (Si – Mg – Ca – K – P).

PRECAUTIONS: This is a completely natural product, non-toxic to humans and animals. E9 CAMPER has no contraindications and requires no special precautions.

HE5 CAMPER

NATURAL SANITISING SOLUTION

H.E.5 CAMPER is a formulation of probiotic microorganisms and natural enzymes, enhanced with essential oils of pine, eucalyptus and niaouli. Designed for microbiological remediation and the control of ammoniacal odours (decomposition).

AVAILABLE WEIGHTS

Pack of **1L**

STORAGE TEMPERATURES

-20°C

+50°C

COMPOSITION: Total live bacterial cultures: 310×10^9 MPN/g; enzymes (cellulases, proteases, lipases, oxidoreductases, phosphorylases); balsamic essential oils; seaweed extracts; saline solution.

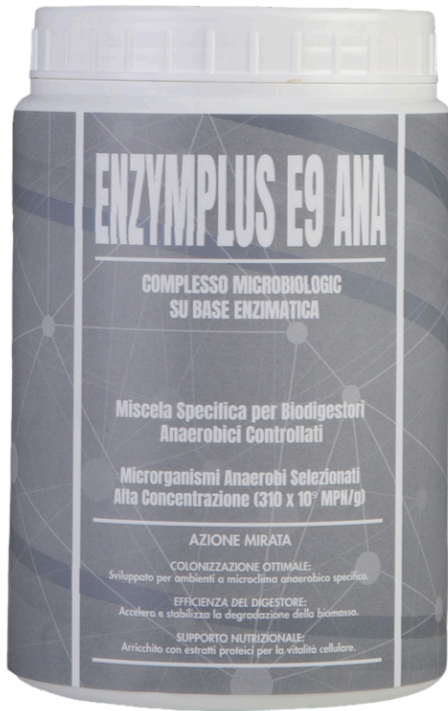

PRECAUTIONS: This is a completely natural product, non-toxic to humans and animals. HE5 CAMPER has no contraindications and requires no special precautions.

Ecogas and Bioenergy

Technical support for biogas and ecogas plants to maximise energy yield:

- **Digestion efficiency:** Faster conversion of biomass into methane.
- **Fluidisation:** Reduction in viscosity within digesters, optimising pumping and reducing electricity consumption.

BIOGAS

E9 ANA

ENZYME-BASED MICROBIOLOGICAL TEST KIT

A mixture of specific anaerobic microorganisms suitable for colonising environments with a specific microclimate within a controlled anaerobic bioreactor.

AVAILABLE WEIGHTS

Pack of **20kg**

STORAGE TEMPERATURES

-20°C

+50°C

COMPOSITION: Enzymes, total bacterial count 310×10^9 mpn/g, protein extracts as a nutritional source for these cells, marine plant extracts, supporting mineral salts (Si – P – Ca)

PRECAUTIONS: This is a completely organic product, non-toxic to humans and animals. Enzymplus E9 ANA has no contraindications and requires no special precautions.
